Lindsey admitted to the use of fentanyl on or about December 19, 2022, and he signed an admission of use form confirming that use. The offender then submitted to random urinalysis testing and provided a urine sample that tested presumptive positive for fentanyl and methamphetamine. Because he adamantly denied the use of methamphetamine, the sample was forwarded to the laboratory for further testing.

On December 28, 2022, the undersigned officer received notification from the laboratory that the urine sample provided by Mr. Lindsey on December 21, 2022, was confirmed to be positive for both fentanyl and methamphetamine.

The U.S. Probation Office respectfully recommends the Court to incorporate the violations contained in this petition in future proceedings with the violations previously reported to the Court.

I declare under penalty of perjury that the foregoing is true and correct.
